

## SAUNTERINGS

From Where The West Begins.

By JOHN T. MEYERS.  
For The Sea Coast Echo.

THIS is written at Corpus Christi, a vacation paradise for south Texans, and visitors from all parts of the country. Corpus Christi lies some 155 miles southward from San Antonio, linked by a splendid, paved highway passing through many thriving little towns enroute.

Corpus Christi's romantic history dates back more than four centuries. Its impressive name was bestowed by adventuresome explorers sailing under the flags of Spain, who cast anchor in the shallows of the island that divides the inner bay from the great Gulf of Mexico.

MOTHER Nature has afforded Corpus Christi the distinction of being located both upon, and above the sea level. The highest elevation along the Texas Gulf Coast is to be found here. The greater part of the city is built upon a forty-foot bluff overlooking the sparkling, rippling waters of the gulf. The land gently slopes toward the beach front. The main streets, department stores, theatres, banks, and hotels are located in the lower leveled region, however. The water front is dotted with fishing and pleasure craft bobbing restlessly upon the waves. Throngs of bathers frolic in the water, others stretch full-length upon the sand, acquiring various hues of a healthful sun tan. Seagulls skim gracefully about overhead.

ENTHUSIASTIC boosters of Corpus Christi point with just pride to the growing port of Corpus Christi. You are informed that ships from all parts of the world ride at anchor here. The port was officially opened in September 1926. Trainload shipments of oil, cotton, sulphur, lead, cattle, winter vegetables, and many other Texas products are loaded on vessels consigned to distant points, we were informed. Many people are employed in the loading and unloading of ships, we were informed.

IF Corpus Christi felt the effects of depression, it is not apparent on the surface. This thriving city, with a population of 27,789 presents a study in electrified business energy. Hotels, shops, cafes, and other business firms are filled with money spending customers.

FROM the note book: Corpus Christi has more tourist camps to the square inch than any place we have ever visited. Many southwest Texans taste seafood for the first time when visiting the coast... and marvel at the sight of oysters, crabs, and shrimp. Natives subtly change the subject of coastal hurricanes is broached. Nudist advocates would blush with shame at sight of some bathing costumes worn by both sexes on the beaches. Corpus Christi's North Beach is a pocket-sized Coney Island, an atmosphere of unrestrained comaraderie, with concessions including duck-the-nigger, roller skating rink, shooting gallery, merry-go-round, and other amusement devices. The moon-sighting waves and shady white beach still Cupid's stronghold. Even long-wed couple fall victim to the amorous urge, as they promenade by arm in arm.

THE waters around Corpus Christi and Port Aransas, nearby, are rich in the lure of thrilling sea adventures. Jean Lafitte, the colorful pirate, eluded capture hereabouts, and many are the tales of pirate gold and jeweled treasure supposedly buried in this section. Aransas Pass was the scene of blockades and blockade runners during the Civil War. Zachary Taylor chose it as a port of disembarkment for his army prior to his invasion of Mexico in 1846. Again in 1898, Aransas Pass played a prominent part in military activities during the Spanish American War. Aransas Pass is the stomping ground for gamblers, fishermen, kings, jacks, and mackerel are plentiful in season, while trout, red fish, and pompano are caught the year round.

COTTON season is beginning throughout southern Texas. Traveling the highway during the wee hours of morning one encounters trucks and delapidated automobiles of every description parked beside the road. In the glow of dimly burning lanterns the forms of Mexican cotton pickers can be seen sprawled upon blankets and sacks thrown upon the ground. The twinkling stars overhead in the ceiling. These nomadic workers travel in caravans. Meals for prepared over camp fires when stops are made. Families are large, and will assist in picking cotton when the blooming fields are finally reached. Mexican cotton pickers are always accompanied by goats, dogs and numerous guitar playing songsters. They are a carefree people leaving serious thoughts to the unborn manana.

CROSS your fingers and hold your breath. Today is Friday the 13th. If you're superstitious, take heed, don't lunch with the blonde stenographer—if you're married. Deposit all two-dollar bills in the nearest garbage can—and pay off all honest debts (especially newspaper subscriptions and advertising accounts—especially). Above rules may also be followed by non-believers of Friday the 13th jinx.

## BUSINESS MEN OF TWO CITIES GATHER IN INTER-CITY MEET AT BRADLEY'S

Rotary Club Members and Guests Hold Annual Ladies' Night and Installation Ceremony—New Officials Take Reigns.

Pass Christian and Bay St. Louis Rotary Clubs assembled Monday evening at Bradley's Beautiful night club, across the Bay, in annual inter-city meeting and on which occasion recently-elected officers were installed with simple but effective ceremony.

Officers for the Pass club include, Wm. V. Robinson, president; Frank L. French, vice president and Ed. A. Lang, secretary-treasurer.

For Bay St. Louis, Arthur A. Scaffide, president; Joseph R. Scharff, vice president and M. E. Badon, secretary-treasurer.

Immediate Past President John J. McDonald presided during the first part of the banquet after which he turned the honor over to the newly-elected Pass Christian president.

President Robinson of the Pass was the first program speaker for the evening, giving a history of the Pass club since its inception to the present. As historian he gave a complete resume and punctuating his remarks with humorous references. Timely and most clever.

President Arthur A. Scaffide of the Bay St. Louis club following his installation, gave an address apropos to the occasion and told a humorous story that was fully in keeping with the high spirit of the evening.

While President Robinson was speaker for the Pass Club, Past President Chas. G. Moreau spoke for the Bay St. Louis Club, reviewing the achievements of the local club, now in its ninth year.

### Guest Speaker

Rev. Father Leo F. Fahey, of Bay St. Louis, filled two speaking engagements the same evening. The first in Bay St. Louis for the installation of officers of Knights of Columbus and reception that followed. He was the guest speaker for Rotarians. In his own and inimitable way, briefly and to the point, his remarks were witty and he scored heavily and seemingly all to short. The 53 guests in attendance were solidly for him. He had won their interest and hearts and scored unanimously.

Vice president Jos. R. Scharff sang a song to the accompaniment of the club's guitarist who lead the singing, and Barksdale and Bob Bradley of the Pass sang a duet in that successful manner that warrants them a contract at some future time.

Rotary spirit predominated and the inter-city meeting was the best one of the fifth held by both clubs.

Bradley's served a veritable banquet. There was nothing lacking. The menu, cuisine and service was of the best that stands the test.

In addition to the speaking program, guests had the advantage of dancing that followed and the professional floor show that was put on at 1:30 o'clock, perhaps the best program of the season.

Bay St. Louis Rotary Club, composed of business and professional men of the community, established in 1926, has survived the depression and continues its part in the progressive, constructive share of the community's work, and under its leadership from year to year, and co-operation of members, it cannot but otherwise continue to function to the advancement and growth of both county and city.

Mr. Scaffide, the new leader, has been actively identified with Rotary

## RESTRICTIONS ON RUBBER MAY CAUSE TIRE PRICE RAISE

Persons Who Purchase Tires Now Will Save Money—Local Goodyear Dealer Believes.

Strong possibility exists that restrictions being placed on crude rubber will affect tire prices, in the opinion of E. J. Arceneaux, local dealer for the Goodyear Tire & Rubber Co.

"It seems quite reasonable to expect that the crude rubber restrictions will result in higher tire prices," Mr. Arceneaux declared. "In that event, the person who buys tires now, while prices are still low, will probably be saving money."

"Saving money is just one advantage in buying tires at this time," he continued. "Tires purchased now will give the car owner non-skid mileage during the remainder of the summer and during the winter when sure-footed traction is necessary on wet, slippery streets."

"This is particularly true of the new Goodyear G-3 All-Weather tire, which was announced to the public this spring. The G-3, with its wider, flatter tread, more traction in the center of the tread, and an average of two pounds more rubber per tire, proved under grueling tests that it delivered 43 per cent more non-skid mileage than old-style tires, and letters received by the company indicate that in actual use by motorists, it delivers even more than that."

"It would seem to me to be a saving in more ways than in money by buying G-3's at the present time," Mr. Arceneaux concluded.

since its beginning, serving as secretary 7 years, vice president 1 year and now president. Joseph R. Scharff, vice president, serving as secretary-treasurer, last year, will continue his activities as vice president, and M. E. Badon becomes a worthy successor to Mr. Scharff.

The guests from both cities were as follows:

Pass Christian—Mr. B. L. Knost, Miss Claire Knost, Mr. and Mrs. Wm. V. Robinson, Miss Naomi Saurier, Mrs. Walton, Mr. and Mrs. Woodruff, Mr. and Mrs. J. M. Terrell, Mr. Walter L. Read, Mr. and Mrs. Frank L. French, Mr. and Mrs. Wm. F. Adams, Mr. and Mrs. E. A. Lang, Miss Jane Lang, Miss Mae J. McDonald, Mr. Fred Sutter, Mrs. Peggy Gause, Mr. and Mrs. L. H. Barksdale, Mr. and Mrs. Robert D. Bradley.

Bay St. Louis—Mr. and Mrs. M. L. Ansley, Mr. and Mrs. C. M. Weeks, Mr. and Mrs. Arthur Scaffide, Mr. and Mrs. Leo R. Murtagh, Mr. and Mrs. Chas. G. Moreau, Dr. and Mrs. J. A. Evans, Mr. John J. McDonald, Miss Mary Elba Marshall, J. R. Scharff, Mr. and Mrs. M. E. Badon, Mr. and Mrs. C. E. Craft, Mrs. Carl Marshall, Mr. Dug Branch, Dr. and Mrs. C. M. Shipp, Dr. and Mrs. A. P. Smith, Mr. S. L. ## NEW PASTOR FOR ST. AUGUSTINE SEMINARY ASSUMES HIGH OFFICE

Very Rev. Gerard Esser, S. V. D., Succeeds Very Rev. C. J. Heffels, S. V. D.

The Very Rev. Gerard Esser S. V. D. was installed as the new rector of St. Augustine's Seminary on Monday, June 8th, to succeed the Very Reverend G. J. Heffels, S. V. D., whose term of office ended with the close of the scholastic year. Immediately on his arrival from St. Mary's Mission House, Techny, Ill., the new Superior was conducted by the faculty in procession to the chapel where the rest of the community was assembled. Here, according to the ritual of the Society, the Veni Sanctus Spiritus was sung, after which the newly elected rector addressed those present. He expressed his joy to be among them and his desire to labor in cooperation with the members of the Seminary, for the promotion of the religious spirit, and for the great cause so dear to the hearts of the Vicar of Christ—the establishing of a native clergy. He then gave his blessing to the community and was escorted to the rectory.

Father Esser has already filled several important posts in the Society, having been formerly Novice Master at St. Gabriel's Mission House in Austria the largest Novitiate of the Society. Prior to his last appointment he was Professor of Philosophy at Techny, Ill., where he wrote several text books on Psychology, Ontology and Epistemology. Besides being rector of St. Augustine's Seminary, Father Esser will also be Sub-provincia and Superior of the Southern Missions of the Society of the Divine Word. This last appointment will make St. Augustine's a sort of central station for our missionaries who now come to the Bay for their annual Retreat and conference.

Brother Alfridus S. V. D., a lay brother who has been in the Southern Missions for the past two years accompanied the new rector to the Seminary. He, together with Bro. Theophane, S. V. D., who has been here since the end of May, will form the nucleus for a community of lay brothers with which is hoped St. Augustine's will soon be provided.

To The People of the County:

I have been appointed Emergency Home Demonstration Agent for the months of July and August in Hancock county.

My work will be assisting to conserve all surplus products for winter use in the home and for the school luncheon room. This will be done in connection with the relief work and also with individuals or groups not on relief.

This canning is done at canning centers in your community on the following basis: People on relief keep 3-4 of products canned and give 1-4 to be stored for school lunches, people not on relief can on halves if the relief furnishes cans. When the sugar is furnished to relief cases the canning is done on halves.

I am going to visit in each community to meet the people and hope that I may be able to assist you in any farm home problem which may arise. My office is on the second floor of the court house and I will be there each Saturday. ## MISSIONARY SOCIETY TO MEET

Regular monthly meeting of the Woman's Missionary Society will be held at the home of Mrs. Donald Marshall, at three o'clock, Tuesday afternoon, July 17.

All interested are cordially invited to attend.

The big Bilbo political Rally and Fish Fry on the north beach of Bay St. Louis, Wednesday night was attended by three thousand or more Hancock county citizens and everybody present got their appetites for politics and fried mullet satisfied. Gov. Bilbo was in fine trim and made a fiery speech, his words falling as fast as bullets from a machine gun. The Bilbo enthusiast and supporters predominated and cheering for Bilbo rent the air.

When Mr. Bilbo told the big audience that he stood for redistribution of wealth, because nine tenths of the swollen fortunes were stolen money and that the big fortunes of the country had to be broken up in and orderly way by law or that these fortunes would be broken up by fire and at the points of bayonets, the crowd went wild with cheers and enthusiasm. Mr. Bilbo said he believed in the doctrines of Thomas Jefferson. "That Every Man Should be a King." He said if necessary if elected he would raise more hell in Washington than Huey Long ever dreamed about. But he would do it in an orderly way. He said "You need somebody in Washington to raise hell and that the reason he was running for the United States Senate."

### The Bonus Bill

He made a solemn promise to get the bonus paid in full for the World War Veterans. Listen, you world War Veterans, "Send me to the Senate and I'll get the bonus in 1935. I am the man that will bring home the bacon," he said.

Mr. Bilbo discussed in a masterly way his 26 relief planks, and he astounded the large audience by telling them of the many gigantic steals that had been taking place in Washington under the cloak of the law and that none of his opponents had ever seen anything wrong nor even smelled anything wrong. He said, "your troubles are in Washington, and not in Jackson." He told his hearers why so many people were wearing patched pants and last year's clothes.

He had always stood by President Roosevelt and he believed in and favored continuing the relief work just as long as there was any danger of our suffering for want of food, shelter and clothing.

Mr. Bilbo favors a pension for all persons who are over sixty and destitute, also favors pensions for the blind who are in needy circumstances. He favored higher wages for the laboring man and for postal employees especially the R. F. D. mail carriers, saying the latter had received a raw deal. He strongly favored lower rates of interest for the farm mortgage loans, saying the farmer would never get out of the hole unless he could borrow money at a cheaper rate and get the government to scale down the mortgage.

Mr. Bilbo told the audience that his election would be a landslide, from Dan to Beesha, from hell to breakfast, from Yellow Rabbit to Vinegar Bend. He said that he had made speeches in 78 counties out of the 82 counties and that he had made his campaign speech to over two hundred thousand people. He was now on his second tour of the state. Last Saturday he spoke in Benton county on the Tennessee line, jumped 300 miles to Poplarville to vote against the May Roberts Liquor Bill. Mr. Bilbo received a most cordial welcome on the coast.

Hon. Walter J. Gex, life long political friend of Gov. Bilbo, was master of ceremonies and introduced Gov. Bilbo and the other candidates. Four candidates for Congress made speeches as follows: Hons. Bill Colmer, John Lumpkin, McIntosh, and Currie. Three candidates for Circuit Judge spoke, W. F. Elmer, D. M. Graham and Wm. Estopinal. Mr. Bilbo departed this Thursday afternoon for Picayune, where he will speak tonight.

## ARE TEACHERS PAID?

WHAT about school teachers?

In spite of our boasting that we take pride in our school system the public has taken it easy in regard to paying teachers what they are worth if our school system is not a joke. Figures compiled by the Federal Office of Education show that there are 60,000 fewer teachers employed although half a million more scholars are in school than in 1932. Worse than this, the record reveals that one-fourth of all school teachers in this country receive less than \$750 a year, the minimum allowed under the blanket code for factory workers! Nearly 85,000 teachers, says the National Educational Association, are paid less than \$450 a year. Even so, in many states the promised salaries are not always paid. In fourteen states there exists outstanding warrants and certificates of indebtedness for teachers' salaries amounting to over \$33,000,000. In a number of states teachers were compelled, and are compelled, to cash these promises to pay at discount rates ranging from 5 to 40 per cent. In only a fraction of the states were all teachers paid in cash.

## MILL NEEDS NO SYMPATHY

WHILE somewhat distant from the scene, we do not believe there is any reason to lose any sleep over the plight of the Harrison Hosiery Mills, which recently asserted that the loss of the Blue Eagle forced it to suspend.

Anti-union elements abounded in the vicinity of the mill and it appears that the basis of the row is an attack upon labor organization. The case was brought before the National Labor Board and it is significant that both the representatives of labor and employers joined in calling for the withdrawal of the Blue Eagle.

The closing of the mill comes at a time when it is normal in the industry for inventory purposes and when the business, faced with a surplus, had been authorized by its code authority to shut down two weeks in July or August. Moreover, the mill, according to Gen. Johnson, has refused to permit outside auditors to check on its statement concerning the employment of outside help.

## COST OF THE DEPRESSION

SOME critics of the Government have been alarmed at the money spent by the Federal Government in an effort to bring industry back to normal in this country.

These people should compare the few millions of dollars so spent with the billions which a depression costs and then decide whether or not such governmental expenditure is unwise.

Dr. David Starch, research expert, recently estimated that the cost of the great depression was around \$250,000,000,000. The National Industrial Conference Board estimates the cost for the years 1930, 1931, and 1932 at \$107,000,000,000.

If the Government, by spending a few billion dollars, can restore business the money spent will be soon regained.

## JUST A "MOTHER"

WE were interested a day or so ago to read, in a metropolitan newspaper, an account of the brave sacrifice of a mother, who seeing her sons, ages 9 and 7, fall into a canal, jumped in to save them although she could not swim. Sad to relate, the younger boy and the mother died, although the older son, who also risked death to save his brother, was saved.

We were not surprised at the mother's action. She did what she could, as most mothers do, but what amazed us was the fact that her name was not mentioned in the newspaper account.

She was referred to only as "a mother," and again as "the mother." And, upon reflection, what better could she have had and how better could she have earned the fullest right to claim that highest of human titles, "mother."

Fishermen continue to tell astounding stories about the ones that get away.

## SITUATION IN GERMANY OF WORLD INTEREST

THE most interesting news of the week comes from across the water. A great deal that is of tremendous international importance has happened in Europe.

All Europe fears war, is preparing for it on the one hand while statesmen make long and empty speeches concerning peace in the other. Main thorn in the side of most European powers is Germany—and today, when you speak of Germany, you speak of Hitler, the ironhanded dictator. Under the treaty of Versailles, most fought-about document signed in this century, Germany is allowed no army that amounts to anything, is prohibited from making or obtaining offensive military weapons such as tanks, fighting airplanes, big guns. It is an open secret that Germany, under Hitler, has successfully abrogated the treaty through various dodges. For example, famous storm troops are supposedly a fraternal order, and do not technically come under the classification of an army. As a matter of fact, they are well-trained, well equipped, thoroughly disciplined fighting men.

No man living has made a more spectacular rise than Hitler. Ten years ago he was in prison for starting an abortive revolution against the republican German government of the time. Sentenced to a long term, he was pardoned, in the belief that he was small politically fry, could do no harm. Today he is more powerful and more ruthless than even Mussolini and Stalin. His slightest word is law, and the faintest criticism of his policies in cause for arrest, concentration in one of the camps for political-prisoners he has created in various parts of Germany—and possibly, execution.

Most European powers would give much to see the Hitler government collapse—the Nazi movement is gaining ground ominously in other countries. And the rumor of late has been that the German people, traditionally independent and intelligent, are tiring of him. It is an unquestioned fact that he no longer enjoys the vast popularity he once did, and that groups are forming with the objective of eliminating him. It is an important sign of the trend that he is growing constantly harsher in suppressing opposition—all dictators do that when their power is on the wane.

Hitler's answer to revolt came on Saturday, June 30, and Sunday, July 1. The answer can be expressed in one ominous word: Terrorism. Kurt Von Schleicher, once Chancellor of Germany, the position Hitler now holds, was shot with his wife. The charge was resisting arrest—but few will believe that. Other famous Germans were slaughtered or imprisoned. Innumerable ordinary German citizens, who were on the anti-Hitler side, were killed. High officers in Hitler's own storm troops met a like fate, because they were not zealous enough in supporting him.

The result is that Germany, at this writing, is one the verge of revolution—it's a case in which anything can happen. And what happens may have much to do with deciding the future of the world, and determine whether or not there is to be another great war. Until the German crisis is settled one way or the other, lights will burn late in chancelleries in all the great powers.

## MISSISSIPPI GOES DRY

LATE returns, increasing the dry margin, Wednesday showed Mississippians had rejected by a vote of better than two to one in Tuesday's referendum the proposal that sale of hard liquor be legalized and placed under state control.

Tabulations from 1250 of the state's 1596 precincts late Wednesday, in which all 82 counties were represented, gave the dries 75,330 votes against 32,623 for the wets.

Jefferson Davis county, in South Mississippi, also voted to outlaw the legalized sale of beer and wine, which was authorized at the last session of the Legislature.

The victory in Jefferson Davis, the first county to take advantage of the local option clause provided for in legalization of beer, will be followed by numerous other local option elections, dries were predicting.

Now that Mississippians have voted against legalization of hard liquors, interest has centered around enforcement efforts on the part of city, county and state officials in an effort to "dry up" an admittedly wet state.

Official records in the office of federal collector of internal revenue here reveal that 611 retail liquor dealers and five wholesale liquor dealers in Mississippi have paid federal occupational stamp taxes in connection with these liquor sales.

Hancock county, it is reported went wet by 1 to 3.

Bay St. Louis vote was 457 wet; 103 dry. Ballot boxes were opened Thursday afternoon, after The Echo had gone to press.

## SOLDIERS DIED BY LOT

THE truth about warfare comes to light very often years after the struggle has ended. During the World War no news of mutiny came from any country. All that we heard about our allies was their bravery, courage, patriotism and other good points.

Recently a special tribunal has acquitted two soldiers of military offenses alleged to have been committed in 1915 when a French company, after bloody engagement, refused to obey an order to go over the top. The official record says that at the time "the trenches were a living hell" and that the dead from the preceding attack were piled one upon the other, and there was not a foot of ground on which there was not a corpse.

More significant than the mutiny itself is the method by which commanding officers punished the company for its refusal to go forward. From each squad a man was selected by lot. They were taken before a council of war which ordered them to be killed by a firing squad and the sentence was promptly carried out.

The discipline of the French Army was probably no more severe than that of other armies, but stories like this ought to enable readers to form a clearer conception of the true nature of war.

## WITH THE PRESS

WHAT YOUTH LEARNS  
(Editor and Publisher)

WHAT per cent of high school and college boys and girls are aware of the titanic changes under way in the world, spot news on the first page and inevitably destined to influence their lives? Among younger acquaintances we find only an occasional bright faced lad or lass able intently to discuss the political events of the day. The talk of most of them is trivial. Our opinion, therefore, is that much of the exciting historic information that is now reeling from the nation's presses is lost on the juvenile class.

That conviction is supported by a "prominent name quiz" recently made among students at the University of Tennessee. All quickly identified Max Baer, the fighter, and Kay Francis, the movie actress, but here were some of their misidentifications, Hugh Johnson, orchestra leader; Fiorello La Guardia, unknown; Ferdinand Pecora, bull fighter or a "king" of a "French politician." August Piccard, Greek wrestler.

Educational institutions that inculcate an interest in current public affairs are surely serving a cause of more importance than is generally realized.

## DEMAGOGUES

(Pascagoula Chronicle-Star)

ALTHOUGH this is an "off year" in politics, so-called because there is no national campaign for president and vice-president, there will be plenty of interest in contests for state offices and for membership in both houses of Congress. All member of the House and one-third of the Senate will be chosen in elections this year.

Politicians of every sort will make their appeal to the "dear people" for support on one pretext or another. And, as always, the demagogues will be out in full force.

Webster defines a demagogue as "one who plays an insincere role in public life for the sake of gaining influence or office; a pander in politics, especially one who panders to popular prejudice or seeks to inflame reasonless passions in the advancement of his personal interests."

It is a reflection upon the intelligence and judgment of a great percentage of voters that they are apparently unable to size up the demagogues for what he is. They listen to his ravings and swallow his insincere promises with avidity. His wild statements and most irresponsible representations are often accepted at face value—and he gets many votes from the less intelligent class of citizens.

## THESE DAYS

(Port Gibson Reveille.)

IN y e olden days candidates for our law-making bodies mapped out a program of measures which they considered for the good of the country and whipped by their eloquence the voters into believing these measures were necessary. Present day politicians keep an ear to the ground for a time before announcing for the office to which they aspire and then shape their "views" according to what their investigations convince them the majority of the voters want: "Equitable division of wealth," "Old Age Pensions," "Better laws for labor," "A fairer deal for the farmer," "Payment of the foreign war debts."

## AT LAST

Pascagoula Chronicle Star)

PERHAPS at last Jackson county will begin to benefit by its ownership of three thousand acres of lands in Hancock county. For years the lands have been cut over, burned over, hunted over, wooded over, grazed over and just generally used as any one's fancy happened to direct.

The same probably is true of the entire tract of 30,000 acres owned by forty counties in the Hancock and Pearl River counties, and which was given them years ago in lieu of sixteen sections for school purposes.

Jackson county owns more of the "lieu lands" than any other county. Recently our board of supervisors leased 2,711.40 acres of lieu lands along with 10,000 acres in the county proper to an oil company for \$3,250 cash.

The company must bore for oil or gas within a year, or pay us 25 cents an acre to keep the lease alive. If minerals are found, the county will get the usual one-eighth royalty. But something else has happened to our "lieu lands" over in Hancock county.

CCC Camp No. P-52 near Kila has done a variety of work on our "foreign possessions." Besides keeping down fires, the boys have erected look-out towers, strung telephone lines, built roads and bridges, started pine trees to growing.

Under the program, a decade or two will make the land very valuable. And if oil or gas or salt or sulphur or any other mineral is found below the soil, that will make it all the more valuable.

Our "lieu lands" that have been so sadly neglected for many years might yet help us pay more old debts.

Harrison county, on the face of returns from 21 out of 22 precincts voted wet in Tuesday's election by a large margin. The town of DeLisle voted solidly wet, casting 46 votes.

## LETTERS FROM THE PEOPLE

OBJECT TO LOCATION OF FACTORIES

To the Editor of The Sea Coast Echo:

Is it possible that the Mayor and Commissioners of the City of Bay St. Louis do not realize the irreparable damage they will do to the city, in allowing two canning factories to locate in the heart of the most beautiful residential section? The Bay has come to be known as a garden spot of rest and beauty to many of us who live here and to hundreds of people who come every year, to enjoy the beautiful scenery, cool breezes, and still more cooling waters of the Gulf. Several families in the vicinity of the factory site have decided to leave and many others will follow suit. Nobody wants to live on a beach behind ugly factory buildings, with the waters of the bay so polluted by refuse as to be unfit for swimming and worst of all that ever-present odor of dead shrimp mingled with your cooling breezes. The Mayor will tell you that under the new code there will be no odor. President Roosevelt and General Johnson have done wonderful things with the code and the N. R. A., but even they cannot remove the odor from dead shrimp.

The Mayor will tell you that the factory will employ only home labor and will give employment to many who need it badly. That is fine, if true, but why rob Peter to pay Paul? The factories can operate just as efficiently, and give employment to just as many people, located at the end of sea-wall on Jordan river or in some of the numerous bayous, where they will harm no one. So why ruin the homes of good citizens who have for many years supported the city by the payment of enormous taxes and liberal spending with the merchants. Shall we keep it a beautiful health resort or shall it be just another Shrimp Town? We the undersigned, with many others whom we could not reach, believe that it shall be kept as a resort.

(For Re-Election)

## JUDGE WHITE IS CANDIDATE FOR ANOTHER TERM

## Biloxian Presiding Over Second Judicial Circuit Asks Reelection

(Daily Biloxian)

Judge Walter A. White of Biloxi today made formal announcement of his candidacy in seeking reelection to the office of judge of the second judicial district. Judge White has presided over the circuit courts of the district for the past several terms, being on several occasions elected without opposition.

Judge White is a native of Mississippi and has been a resident of Biloxi and the Mississippi Coast for the past 44 years. He has made a splendid record which he presents as his claim for return to the office one of the most important in this part of the state.

He is recognized as one of the leading magistrates of the state. He has conducted his trials with the utmost impartiality and consideration, and has one of the best records in Mississippi in cases referred from his court to the Supreme court of the state.

Judge White took his seat as circuit judge for the district, including the counties of Harrison, Jackson, Hancock, Stone and George on September 1, 1923, and his record has been above reproach.

He has been recognized as a leader in the Coast section of the state for many years. In 1896 he resigned as a member of the Mississippi legislature to accept the appointment of district attorney, made vacant by the resignation of the late James H. Neville. He held that office until January 1, 1904, when he entered the practice of law as a partner with the late J. I. Ford of Pascagoula.

The firm continued in the legal profession and became one of the outstanding law firms of South Mississippi.

He gave up his practice in 1925 with an income twice as large as the succeeding salary to accept the appointment, succeeding Judge D. M. Graham. To this office he has been re-elected twice without opposition.

Judge White has been active for his entire professional life and without serious illness for any length of time in ten years and is in perfect health at the present time.

He has always been ready and willing to cooperate in any undertaking for civic and other development and has at all times given his constituents the closest attention and advice, both as a presiding judge or resident of the Mississippi Coast.

He holds a record which is outstanding in itself which he places before the voters of the district in asking a return to the office circuit judge.

## With The Movies And Film Folks.

(For The Sea Coast Echo)

THAT the campaign being launched all over the country for cleaner and more wholesome moving picture entertainment is having its effect in Hollywood is evident. Pictures planned for months that producers know would fail to pass the proper test are being indefinitely postponed or abandoned altogether and others are being purged of practically all of their objectionable features.

RKO-Radio begins its 1934-35 season with just such a film in the form of "Age of Innocence," based on Edith Wharton's novel. Irene Dunn has the lead and supporting her are five stage stars from Manhattan—Helen Westley, Laura Hope Crews, Edith Van Cleve, Lionel Atwill and Herbert Yost. Phillip Moeller, of the New York Theater Guild is directing this picture as his first venture in pictorial direction.

The purification of the screen is causing producers to turn to stories of unquestioned theme and the works of Gene Stratton Porter are in demand. RKO recently purchased "Freckles" and "Laddy," for immediate production.

Names prominent in the cinema a decade ago are included in "The Scarlet Letter," which is nearly finished at Majestic studios. Colleen Moore is the star, and the supporting cast is Henry B. Walthall, Alan Hale, Flora Finch and in the days immediately following the war.

Miriam Hopkins will probably have the feminine lead opposite Paul Muni in his next picture, "Border Town," which depicts a transplanted Mexican who becomes a bad hombre and raises hi-jinks on both sides of the Rio Grande.

Damon Runyon doesn't seem to have much trouble disposing of his novels in Hollywood as Paramount recently announced the purchase of "Broadway Financier" and "The Idyll of Miss Sarah Brown" and took options on "Hole 'Em Yale" and "Dark Dolores."

Al Shean, one-half of the old Gallagher and Shean pair, will appear as the singing teacher in the Fox Film version of "Music in the Air."

Columbia Pictures has engaged John Wexley, author of "The Last Mile" and "They Shall Not Die," to write stories for that studio.

A new story, "What's a Lawyer For?" by Thomas McMurrow, has been bought for Will Rogers, who is now hard at work on Irvin S. Cobb's "Judge Priest." He will be seen with Janet Gaynor and Warner

Baxter in "One More Spring," and also scheduled for him are "The County Chairman," from George Ade's play, and "What Am I Bid," an auctioneer story.

### BARBARA STANWYCK IN 'GAMBLING' LADY TO BE PRESENTED HERE

A. & G. Theater To Show  
Warner Bros. Film, Sunday and Monday Nights

Barbara Stanwyck has been given an entirely different role from any which she has portrayed, in the new Warner Bros. production of "Gambling Lady," which comes to the A. & G. Theater on Sunday and Monday nights, for a two night run, in that her character part is both a glamorous and a sympathetic one.

In "Ever In My Heart," while there was nothing of the play lady about her, she was placed in drab surroundings as also in "The Purchase Price." These were supreme characterizations but lacked the glamor of her present role. In "Gambling Lady" she is a gambler, but the squarest, straightest shooting poker player that ever shuffled the pasteboards.

Not only is she on the level in cards but in the game of love and life. She can take it on the chin and does, by sacrificing her love for her husband in order to save him from the charge of murder when he gets into a mess with another woman.

As the gambling lady she plays only in the fashionable night clubs frequented by millionaire men-about-town and in the brilliant Casino of Monte Carlo. Later, wedded to a wealthy society man, she is seen in the palaces of the upper world, although she is never adverse to taking a fling at the ponies or putting some society beauty over the hurdles for her jewelry or what have you.

Miss Stanwyck is supported by two leading men, Joel McCrea in the role of a society man and Pat O'Brien, as a race horse gambler, both of whom are in love with her. Claire Dodd is the other woman, a housewife who makes a play for Barbara's husband.

The picture is based on the thrilling story by Doris Malloy which is dimmed by a murder for which McCrea is arrested, and which he can not explain without bringing dishonor on a woman. The story also reveals the grip on city life of the gambling syndicate and the methods they employ to take cash from the suckers.

This Association will comprehend all of the dealers in Hancock, Stone, Jackson and Harrison counties, who retail rubber tires and batteries. There are approximately ninety dealers within the said area.

This Association is formed under and by virtue of the provisions of the Federal Code for the Trade, and has been assured that it will be appointed the Regional Control Board for the Mississippi Coast trading area.

The purposes under the law for which it is formed is to maintain and compel fair competition according to the provisions of the Code approved by the President on May 14, 1934. The Association is also unit of the National Tire Dealers Association, which is officially designated the Administrators of the Code by General Johnson.

The Mississippi Coast Tire and Battery Trade Association has set up offices in Gulfport at 307 Hewes Building, and have become active and in its operation.

All members of the Trade are urged to become members at once, in order that they may take an active part in the enforcement of the Code.

### FOR FAT FOLKS

3 Great Letters  
Read Them All

From all over the country—north—south—east—west come letters of praise for the world's safe and healthful enemy of fat—don't miss these 3 letters.

"I am using Kruschen Salts on advice of my Doctor...Have used three bottles and lost 15 lbs. and gladly recommend it to all my friends." Mrs. G. W. Bryant, Foxboro, Mass., 1934.

"I am using your Kruschen Salts for constipation and reducing. Have taken 3 jars and have lost about 20 lbs. I can recommend it to be great." Miss A. J. Harbor, Pineville, Ky., 1934.

"I have taken 3 bottles of Kruschen. I weighed 256, I reduced 56 lbs., and felt better each day, have got my 4th bottle." Ed Jordan, Leaven, Ariz., 1934.

If you are proud of your double chin and blushing abdomen don't take Kruschen Salts. Ed Jordan made up his mind to take off 50 or more pounds of fat—and he did—Ed was sick and tired of lugging it around with him—persistence won for Ed as it will for any fat man.

A half teaspoon in a glass of hot water before breakfast every morning—get Kruschen at any drugstore.

### INTERESTING HISTORICAL FACTS ABOUT THE MISSISSIPPI GULF COAST IN THE VICINITY OF SECTION OF OCEAN SPRINGS

First White Men to Come to Coast Established Settlement  
On Bay Where Now Is Beautiful Jackson County  
Community.

(From Ocean Springs Times)

(Editor's Note—The following interesting facts pertaining to the early history of Ocean Springs was given to The Times by Adolph Schriber, of Madisonville, La., a former resident of this city, whose family were among the early settlers.)

The first French settlement founded on the Gulf Coast, then Louisiana, was early in 1699, by Perre Le Moyne (Iberville), and J. Baptiste Le Moyne (Bienville). The settlement was named Ft. Maurepas, but was unprofitable, so was abandoned, and moved to Mobile, Alabama, 1702.

Ft. Maurepas was located on the north shore east side of Biloxi Bay, on a high bluff. It was soon destroyed by fire after the French abandoned it and was never rebuilt.

So what is now Ocean Springs was left to the Indians again and a few traders from the Carolinas (British).

The oldest permanent settlement which is now Biloxi, Miss., was founded 1712. So what is known as Ocean Springs, was called old Biloxi.

The Spanish kept a small garrison on the north east shore of Biloxi Bay, known as Spanish Camp, from 1781 to 1783. It was moved to Kresville (now Pascagoula) then.

The old fort still stands there on Krebs Lake. Then for 17 years the site and land about Ft. Maurepas was again left to the Indians and traders to rule.

As soon as the United States purchased Louisiana from France (1805) a few backwoods and Biloxi settlers came in and settled in lonely dwellings about Ocean Springs.

A Mr. Lynch from Virginia, the Woodcock family in 1812 from Carolina, the Seymour family from Canada, an Irishman, Jerome Ryan, who married an Indian woman, and from these sprung the Ryan family. Other settlers came from the Carolinas and Georgia, bringing with them Negro slaves to clear the land and till the soil. John Kindall came from Pennsylvania and put up a brick yard which is now the foot of Jackson Avenue. Also a grist mill at the Mill Dam Bayou, which is still known by that name. The present road bed of the Mill Dam is over the old Earth Dam.

Up to 1852 there were only about fifteen families living in what is now the corporate limits of Ocean Springs but there were quite a few other large families scattered about away from the settlement. The descendants of the Davis, Ramsay, Bradford, and Bilbo families still live around where they first settled.

The Indians in Ocean Springs

were of the Creek Nation with Chief Epa Hlaw (Dancing Rabbit) and were troublesome. In 1830 and 1832 they were removed by treaty with the United States to the west, except a few settled half-breeds that were peaceful.

Mr. Lynch kept a small trading post at or near Ft. Bayou. Ocean Springs was then known as Old Biloxi, so he renamed the settlement Lynchburg.

There was no post office in Ocean Springs before 1852. The post office was in Biloxi.

The principal occupation of the settlers was stock raising, tending the land, and charcoal burning for New Orleans market. All transportation was by schooner to and from New Orleans. Then in the latter part of 1840 a company was formed by W. G. Austin of New Orleans, and the old Ocean Springs Hotel was built, but was found to be too small, a was made larger. The company renamed Lynchburg to Ocean Springs because of all the time spent there. One was the famous Mineral Springs (Marble Springs) near Fort Bayou. (Note, the old brick bath tubs are still there.)

With the hotel, the Morgan Steam Boat Line, which ran between New Orleans and Mobile, made Ocean Springs a port of call for passengers, freight and wood for fuel. The hotel did a big business as a north resort in seasons. Other settlers came in, but not very fast, as yellow fever came with them. Yellow fever visited Ocean Springs in 1858, 1875-76 and an epidemic in 1878 light in 1882 and light in 1897.

After the hotel was well established the Civil War came and stopped everything. All men from 16 to 60 years were conscripted for the Confederate Army. That left only women, old men, and children and slaves there. The company formed there was Co. H, 3rd Miss. Infantry, Reg. After the war was reconstruction.

The hotel opened up business, and

Monthly Pains Relieved

Women who take CARDUI have found that severe monthly pains have been relieved and that by continued use of it for a reasonable length of time their strength has been renewed and their general health improved.

As an aid to speak a few words for CARDUI, the medicine I have taken for a week, run-down condition, for bad pains periods, writes Mrs. Rex Chandler of Georgia. Mrs. Chandler states of CARDUI, "I feel 100 per cent better. It certainly helped me."

Thousands of women testify CARDUI benefits them. If it does not benefit YOU, consult a physician.

went back to their old occupations again. More settlers came in again. In 1869 the N. O. Mobile Railroad was finished in 1871. (Now I. & N. R. R.) After the rail was finished and gaining, more and more came. The steamboat stopped running in 1882.

The first newspaper printed in Ocean Springs was in the Ocean Springs Hotel, called the O. S. Tatler, sold weekly on the streets of Ocean Springs, but didn't last long.

After the railroad, other hotels were built and did a big business in the only dread was yellow fever. All summer. There were several local papers printed in Ocean Springs but none were successful until A. E. Lee came to Ocean Springs in 1897.

Note: Northwest from the old Ocean Springs Hotel site there is a little private cemetery where lie buried the founders of Ocean Springs, and builders of the Ocean Springs Hotel, except Dr. Austin, buried in Magnolia Cemetery, New Orleans, La.

The cemetery in Ocean Springs is marked with iron fence and headstone, which should be preserved as an historic spot. All was there when I last visited there thirty years ago.

Over  
the Hills and Far Away

When Summer brings a gray tone, it inspires the urge to break away from the confines of every day life and take a vacation.

But it won't do to break away completely. Some touch must be kept up with the office and home to prevent needless worry.

Long distance telephone service provides the necessary means for a satisfactory week-end back home at surprisingly low cost.

The "long distance" operator, wherever you go, will gladly tell you the cost of a call, and explain the different classes of service.

Vacation time, no matter where you will find long distance telephone calls are quick, clear, effective and reasonable in cost.

## LITTLE MISS IRMA LOUISE KENNEY CELEBRATES FOURTH BIRTHDAY ANNIVERSARY.

CHARMING little Miss Irma Louise Kenney, daughter of Mr. and Mrs. Leo Ellsworth Kenney, residing at North Bay St. Louis, on the beach boulevard, was the honoree of a delightful and unforgettable party Sunday afternoon, from 4 to 6, on the occasion of her fourth natal anniversary.

Many diversions had been planned and successfully carried out for the pleasure of the guests, Mrs. Katherine Schmitt-Thomas, professional, in charge of the various phases of the afternoon program. An outstanding feature was a diminutive circus, mechanically controlled and other like features, engaging the interest of the tots from beginning to end.

Prior to this a clown, impersonated to the every letter of perfection, entertained the group on the porch space before entering the house.

Colorful and tasty decoration adorned the dining room. The table carried in attractive setting cake and candy, and later ice was served and favors distributed. It was evident master minds and deft fingers conceived and executed this fairy-like festival and it is safe to say Irma Louise enjoyed her party with equal pleasure as her guests who revelled to the superlative degree.

place of abode many visit her daily. The place is a kind of shrine where one pays tribute to friendship, sincerity and honesty of personal acquaintance. It has been said we are known by the quality and number of our friends. Miss Welch is known by both.

From a family of distinguished ancestry, men and women known for their belle letters and positions they have taken in the world, Miss Welch has resided in Bay St. Louis all her life and is associated with the very being of Bay St. Louis and its people. A neighbor, a friend, a citizen and one who values more the genuineness of friendship than all the material wealth possible for one to own, it is no wonder she is an unusual woman.

Bay St. Louis pays tribute to Miss Welch. We pay her honor. And while others have wished her all the happiness and success possible, we possibly a little selfish, wish she may long remain with us. Such resident is a gift to the community.

## RECOGNITION FOR LITTLE BAY ST. LOUIS STAGE ARTIST.

Little Miss Melanie de Ben, who left Bay St. Louis recently enroute to Hollywood, California, where it is possible she will get an audition for the movies, visited a while at El Paso, Texas, with her mother, Mrs. Hubert de Ben, and while there appeared on the program of the Mickey Mouse Theatrical Club. In recognition of her appearance and success,

John Patton, district manager for the Paschal Texas Theaters, addressed the following letter, dated July 7th, from which we quote in part:

"The Mickey Mouse Club of El Paso has asked the writer to express to you the sincere thanks of the Club for your appearance at the regular weekly meeting of the Mickey Mouse Club this Saturday morning, July 7th.

"Mr. Mayo Seamon Chief Mickey Mouse, Mickey Mouse, Minnie Mouse and all the officers and members who were present thank you so much and the songs you sang were just grand.

the exposition for some time.

Following the Rotary inter-city meeting of Bay and Pass clubs at Bradley's Monday night, when the banquet U-shaped table had been removed, guests resorted to various smaller tables in groups of friends and enjoyed the aftermath of the event. The floor show was vaudeville with a capital V and dancing by Dick Mackie's orchestra proved most entertaining.

Cards received during the week by friends of Miss Louise Carriere are appreciated considering her wide and almost constant traveling, which has already taken her to various parts of Canada, including Montreal, Quebec, and the famous shrine of St. Anne de Beau Pres. She is now in the Middle West and will later motor with friends along the famous coast of the New England States.
